## By land & by sea

FrequenSea is easily the most complete whole-food product available in the industry. This amazing ionic whole-food tonic includes Marine Phytoplankton, a food source with a nutritional analysis second to none. Marine Phytoplankton contain more than 200 sea vegetables, are a major oxygen source for the Earth, and have 400 times the energy of any known plant. Experts call FrequenSea a superfood as it includes all the elements necessary to sustain a healthy life. With added rose, astaxanthin, ginger, aloe vera and frankincense, it is the best land and sea has to offer.

There is even more good news! ForeverGreen holds exclusivity in the network marketing industry to distribute Marine Phytoplankton. Partnering with a one-of-a-kind sea farm in the Pacific Northwest, ForeverGreen is capable of producing enough Marine Phytoplankton for the entire world.

# 24 Karat Chocolate

With the commercialization of chocolate came the introduction of impure, money-saving ingredients. The "food of the gods" became adulterated with refined sugar, wax, lard and hormone-treated dairy products. These cheap fillers are the reason chocolate is often associated with poor health and a feeling of guilt. With 24 Karat Chocolate®, ForeverGreen returns chocolate to its roots. Only the finest organic ingredients are used to create smooth, delicious dark chocolate. Health and happiness are the only side effects you will get!

**HOLIDAY ENTERTAINING QUICK TIPS**

TRY THESE WONDERFUL RECIPES TO ADD AN EXTRA HOLIDAY FLARE TO SOME OLD FAVORITES.

**SPICED FONDUE CHOCOLATE**

Add 1-2 squirts of White Dragon or 1-2 drops of peppermint oil into melting Fondue Wafers to create a wonderful aromatic holiday flavor.

**SPICED HOT COCOA**

For the ultimate hot cocoa, melt 4-6 Fondue Wafers in 8 ounces of heated milk or milk substitute. Add five to ten drops of White Dragon or 1-2 drops of peppermint oil for an added rush of flavor.
