

SMARTFOOD

Listen to your heart,
stick around, and start
loving others by loving
yourself.
It starts with PULSE-8.

SUPPLEMENT FACTS

Serving size: One Level Scoop (10 g)
Servings/container: 30

	Amount per serving:	% Daily Value
Ascorbic Acid	60 mg	100
Niacin	10 mg	50
Vitamin B6	2 mg	100
Vitamin B12	60 mcg	1000
Folic Acid	4 mg	1000
Vitamin D3	2400 IU	600
Calcium	10 mg	1
Proprietary blend:	9.7 g	*
L-arginine, Malic Acid, Inulin, Citric Acid, Natural Lemon Lime Flavoring, Xylitol, L-Citrulline, D-Ribose, Pomegranate Extract, Red Wine Extract, Acai Extract, Honey Crystals, Co Q 10.		

* Daily Values not established

Directions: Mix one serving (one scoop/tablespoon) of Pulse-8 with 4-8oz of water (to suit your taste). Stir to dissolve. If water is very cold, mixture will take longer to dissolve. One serving provides 5 grams of pharmaceutical-grade elemental L-arginine, and may be taken twice a day.

Store in a cool, dry place. Color and taste may slightly vary with the use of natural flavors.

Caution: Consult your health care provider prior to using this product. If you are pregnant, nursing, or have a known medical condition including cancer, diabetes, herpes, coronary heart disease, or have had a heart attack. Consult your health care provider before use if you take any medications including those for diabetes, high blood pressure, heart conditions, or erectile dysfunction.

PULSE-8™

Pulse-8 is the advanced proprietary formula containing a specific blend, which includes L-arginine in very specific ratios. It is designed to provide optimum cardiovascular support.

More and more doctors are treating their patient's symptoms, starting with numbness, shortness of breath, and lethargy, then they look at obesity, diabetes... and then finally... the heart. When, for many, the heart is the problem.

HEART DISEASE IS THE NUMBER-ONE KILLER OF BOTH MEN AND WOMEN, AND KILLS MORE THAN THE NEXT NINE CAUSES OF DEATH COMBINED.

In recent history, a group of doctors and scientists aligned with a Nobel Prize-winning research to address this very serious and fatal problem. In these findings, a specific natural formula including L-arginine in a very specific ratio created hopeful, heartfelt results.

Doctors were astounded at these results, which included a younger heart, enhanced sexual performance and increased energy. It even showed evidence of combating the effects of premature cardiovascular aging, and over all anti-aging benefits.

L-arginine

L-arginine is known and studied to be a blood flow enhancer which addresses premature cardiovascular aging, supports healthy sexual performance, and may even aid in achieving less body fat.

L-arginine is referred to as the "Miracle Molecule". The remarkable properties of L-arginine were validated by the 1998 Nobel Prize by Louis Ignarro in Medicine.

Arginine is considered a semi-essential amino acid because even though the body makes it, supplementation is often recommended. For example, people with protein malnutrition, excessive ammonia production, excessive lysine intake, burns, infections, peritoneal dialysis, rapid growth, urea synthesis disorders, or sepsis may not have enough arginine in their systems.

PULSE-8

With L-arginine and 8 heartfelt super ingredients:

Vitamin B Complex (B3, B6, B9, B12) – Naturally high in antioxidants, also beneficial for overall health and higher levels of energy.

Vitamin C – Antioxidants like Vitamin C help to combat free-radicals in the body, ultimately helping the body with anti-aging and in return helping the cardiovascular system.

Vitamin D – Helps regulate the calcium and phosphorus levels in the blood by promoting their absorption from food in the intestines, and by promoting re-absorption of calcium in the kidneys.

CoQ10 – Helps support organs with the highest energy requirements, such as the heart and the liver, which have the highest CoQ10 concentrations.

Inulin – A natural sweetener which is also a good source of soluble fiber, that may help lower blood cholesterol and glucose levels.

Acáí – Acáí berries have been found to be some of the highest antioxidant foods on the planet. The antioxidants they provide have beneficial effects throughout the body not just the heart.

Pomegranate – Pomegranates provide superior antioxidants that inhibit LDL oxidation, which supports arterial wall strength while enhancing the activity of the enzyme responsible for converting L-arginine to nitric oxide.

Red Wine Extract – Science has proven that grapes are signature foods as they are high in antioxidants that in turn are beneficial for your heart and cardiovascular health.

DID YOU KNOW?

- **HEART DISEASE IS THE NUMBER-ONE KILLER OF BOTH MEN AND WOMEN, AND KILLS MORE THAN THE NEXT NINE CAUSES OF DEATH COMBINED.**
- **ONE STROKE-RELATED DEATH OCCURS EVERY THREE MINUTES.**
- **500,000 WOMEN A YEAR DIE FROM HEART DISEASE, THAT IS MORE THAN AN OTHER CAUSE INCLUDING BREAST CANCER.**
- **14 MILLION AMERICANS ARE CURRENTLY LIVING WITH SOME FORM OF CARDIOVASCULAR DISEASE. SADLY, THE FIRST SYMPTOM IS OFTEN SUDDEN DEATH.**
